piG Grippy Floor Mat

Take control of your floor safety with our adhesive-backed absorbent mat.

Rental mats are expensive, labor-intensive slip and trip hazards that don't really keep your facility clean. They creep and shift when people walk on them or carts roll over them. They develop ripply edges that cause trips and falls, jam under doors and hang up carts and pallet jacks. And water can't spread out on rental mats, so it collects and puddles on top.

So we invented something better: Grippy Floor Mat.

PIG Grippy Floor Mat absorbs moisture, traps dirt and stops slips, trips and falls better than rental mats. It wicks water and spreads it evenly to let the mat dry out, preventing liquids from being tracked around. Our exclusive adhesive backing keeps the mat exactly where you put it — no creeping or shifting. And Grippy Floor Mat won't trip you up with ripply edges or flipped corners. You can walk, work and roll right over it!

Universal Absorbents

EXCLUSIVE!

PIG MAT

Absorbs anything, works everywhere and is the #1 brand worldwide.

STRONGEST MAT ON THE MARKET

Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray, even when saturated.

SOAKS IT ALL IN

Highly absorbent, fine-fiber construction absorbs oil, coolants, solvents and water without letting liquid or fiber residue behind.

ABSORBS QUICKLY

Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup.

FLAME-RESISTANT

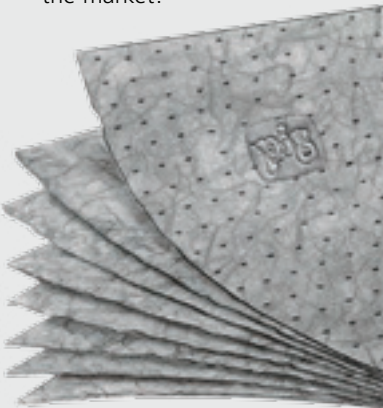

Mat won't burn immediately like untreated cellulose mats and melts when exposed to high heat.

KEEPS YOU COMPLIANT

Mat helps you comply with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

THE STRONGEST MAT YOU CAN BUY

Eight layers of meltblown polypropylene make PIG Mat the toughest mat on the market!

BLUE MAT

Blue Mat Our most absorbent mat!

The maximum absorbency of our Blue Mat soaks up more so you use less on big spills and high-volume leaks. Consistent construction produces a mat that's free of light spots to absorb liquid evenly for better wicking and retention. It stays together, even when picking up or shifting a fully saturated mat. Blue Mat helps you comply with 29 CFR 1910.22(a)(2) for maintaining floors in a clean, dry condition.

ADHESIVE-BACKED MATS

PIG Grippy Absorbent Mat Soak up oil around machinery.

Our exclusive, adhesive-backed mat stays put to prevent slips, trips and falls around workstations and walkways near machinery in industrial facilities. Adhesive-backed absorbent mat sticks to the floor with a super-tight grip with no shifting, bunching up or flipping over. When you're ready to replace it, you can peel it up easily. Like all PIG Mat, Grippy Absorbent Mat is made of eight layers of fine-fiber polypropylene and safely absorbs leaks, drips and overspray of oils, coolants, solvents and water.

PIG Grippy Absorbent Mats Notice: PIG Grippy Absorbent Mats are formulated to work with most common industrial and commercial floor surfaces but are not intended for home/residential use and wood flooring. All adhesive mats have some potential to leave residue or lift or discolor finish coatings, paint, and loose or predamaged tiles depending on the condition and age of the floor surface. If you have questions about the suitability of PIG Grippy Absorbent Mats for your application, test a 6" x 6" piece in a noncritical area before use. PIG Grippy Absorbent Mats should be replaced if they become saturated or show signs of wear or damage.

WHAT MAKES GRIPPY MAT SO DURABLE?

Barbed needles interlock polypropylene fibers that are heat fused for more durability.

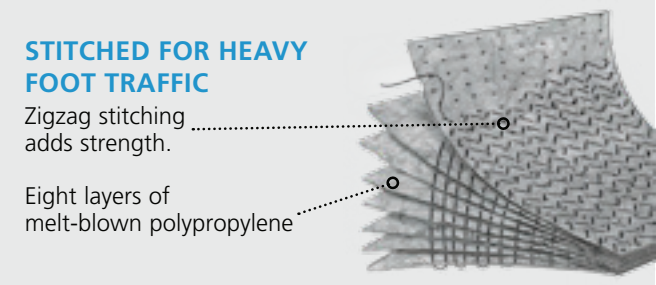

Poly layer tops liquid from passing through to floors and fully coated adhesive backing holds tight but peels up easily.

Elephant Mat
Absorbency plus walk-on durability.

Highly absorbent eight-layer PIG Mat is zigzag stitched to offer excellent walk-on durability. Mat has greater wear resistance so you replace it less often. It's designed specifically for heavy foot traffic or moderate to light wheel traffic.

MRO MAT

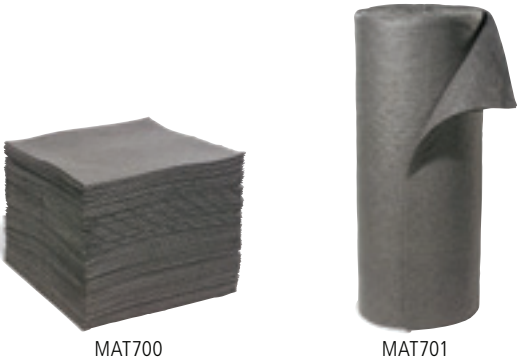

MRO Mat
Affordable for everyday cleanup.

When your application doesn't demand the exceptional quality of PIG Mat, use MRO Mat to get the job done! It absorbs water-based liquids, petroleum products and solvents — ideal for everyday maintenance and spill cleanup. The fast-wicking, dimpled, 3-layer design quickly absorbs liquids to maximum capacity, meaning less absorbent waste and savings on disposal costs.

MRO Mat rolls are ideal for catching overspray and machine leaks; use MRO Mat pads for smaller jobs and spill cleanup.

SOCKS

Original Socks

Our most shape-hugging sock.

Formable socks hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe. Corncob filler pulls liquids from the floor for maximum absorbency; cleanup is quick and easy.

Blue Socks

Our heaviest sock stops spills.

The heaviest sock we make features extra-dense construction to hug floors and stay in place while containing spills. It's ideal for diking and damming liquids. Fine-grade vermiculite filler quickly absorbs leaks, drips and spills; great for spill response or absorbing machine leaks. The stitch-bonded, polypropylene skin resists bursting, reduces dust and holds in liquid, even when saturated. Blue Socks can even be air-dried for reuse when soaked with water.

Some messes need more than a Mat.

3 SIMPLE STEPS TO GET THE MOST OUT OF YOUR PIG SOCKS.

- Clean up all loose absorbents, rags and other debris around the source of the leak. Hold each sock by its ends and shake to evenly distribute filler. This will create better surface contact.
- Make sure your PIG Socks have direct contact with the floor and the liquid being absorbed. Don't stack socks on top of each other. When placing end-to-end, overlap them by 3".
- If it ain't soaked, don't pitch it! Let the sock work until it's saturated. Replace the sock when you see liquid seeping out from underneath.

pig Loose Absorbents

More absorbent than clay.

Lite-Dri Loose Absorbent is lighter and easier to carry than clay, plus it absorbs up to 3X more. Dri Loose Absorbent is made of highly absorbent granules that are heavy like clay and won't blow around. Both have silica-free composition that is nonabrasive and does not pose the health hazards associated with breathing in clay dust.

Lite-Dri vs. Clay?

There's no comparison!

What happens when we put PIG Lite-Dri Absorbent against clay on a 45-gallon spill? Lite-Dri Absorbent wins hands down!

NUMBER OF BAGS NEEDED

Lite-Dri = 5.5
Clay = 10

DRY WEIGHT OF ABSORBENT

Lite-Dri = 121 lbs.
Clay = 500 lbs.

USED ABSORBENT & LIQUID

Lite-Dri = 1 drum
Clay = 2 drums

DISPOSAL COST^a

Lite-Dri = \$600^b
Clay = \$1,800^c

TOTAL COSTS (material, disposal)

Lite-Dri = \$688
Clay = \$1,981

Use PIG Lite-Dri and save \$1,293!

^aWhether you use incineration or landfill, savings are 50% because you dispose of 50% less volume.
^bThis is because of higher Btu potential and lower ash content of Lite-Dri Absorbent.
^c\$900/drum for 2 drums.

pig Drip Pans

Low-profile pan traps leaks.

Low-profile drip pan fits underneath drum faucets and other tight spaces. Its wide base won't tip over like unsteady coffee cans. Ideal for use under leaking drum faucets, spigots and flanges. Soft polypropylene cover catches drips without splashing and prevents polypropylene filler from spilling out.

OIL-ONLY PIG MAT

Absorbs oil-based liquids, repels water and lasts 2X longer!

STRONGEST MAT ON THE MARKET

Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray, even when saturated.

SOAKS IT ALL IN (EXCEPT WATER)

Highly absorbent, fine-fiber construction absorbs oil and oil-based liquids—including lubricants—without taking in a drop of water or letting liquid or fiber residue behind. Perfect for spills on water.

ABSORBS QUICKLY

Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup.

EASY SATURATION CHECK

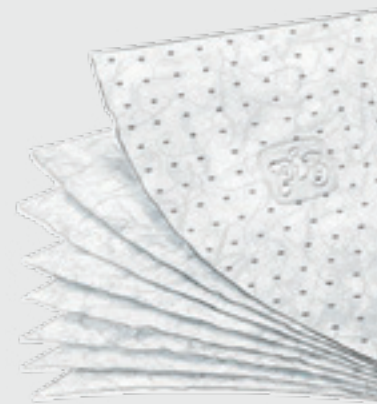

Bright white color makes absorbed oil easier to see; draws attention to machine leaks and clearly shows saturation level during spill response.

FLAME-RESISTANT

Mat won't burn immediately like untreated cellulose mats and melts when exposed to high heat.

THE STRONGEST MAT YOU CAN BUY

Eight layers of melt-blown polypropylene make PIG Mat the toughest mat on the market!

PIG BROWN OIL-ONLY MAT

PIG Brown Oil-Only Mat Hates water, hides grime.

The brown mat color blends in with most environments for both indoor and outdoor use; hides grime, so mat stays on the job longer. It absorbs and retains oil-based liquids — including lubricants — without taking in a drop of water. Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market.

MRO OIL-ONLY MAT

MRO Oil-Only Mat

Great value for everyday cleanup.

When you need to absorb oil-based liquids and don't need the high quality of PIG Oil-Only Mat, use MRO Oil-Only Mat. Absorbs petroleum-based liquids, but not water — ideal for oily maintenance jobs and cleanup of oil spills. Fast-wicking, dimpled, 3-layer design quickly absorbs liquids to maximum capacity, meaning less absorbent waste and savings on disposal costs.

MRO Oil-Only Mat rolls are ideal for lining workbenches and covering large areas; use pads for isolated drips and spill cleanup.

Oil-Only Booms at work...

Surround spill with booms. They begin to absorb oil (not water) as soon as they're in place.

As oil is absorbed, the boom sinks in the water. Oil is now exposed to fresh absorbent.

When completely saturated, the boom will "bob" just below the water's surface.

Absorbent Boom

Control spills with field-proven booms.

Floats to confine and soak up spills on water; hugs ground for land-based spills. Tough outer mesh is UV resistant for long-term outdoor use without degradation.

Oil-Only Socks

Best outdoor sock you can buy.

Moldable socks hug corners and surround machine bases to absorb leaks, contain puddles and keep workers safe. Cellulose filler is hydrophobic — absorbs oil-based liquids but not water — in a variety of environments. Skin is UV resistant up to 12 months; meets NFPA 99 standards for static decay.

Skimmer Socks

Skim and absorb surface oil.

Tough, chemical-resistant polypropylene skin and filler absorb oil-based liquids but repel water-based liquids. Socks are ideal for skimming oil off acid or caustic baths or in other acidic environments. Meets NFPA 99 standards for static decay. Attached string allows socks to be tied down, tied together or dipped into tanks.

PIG HAZMAT

Absorb acids, bases and chemicals with the World's #1 Brand.

STRONGEST MAT ON THE MARKET

Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market. It won't rip, tear or fray, even when saturated.

OUTPERFORMS THE COMPETITION

Only PIG HazMat Absorbents are built to handle the worst of the worst. Highly corrosive liquids like 98% sulfuric acid and 30% sodium hydroxide can cause inferior cellulose mats, socks and pillows to degrade or react. But PIG is specially treated to absorb high concentrations of chemicals.

THE CLEAR CHOICE

WORKWIPES RAGS

Compression-packed bags are a great choice when space is tight.

All boxes feature built-in handles and an opening for easy dispensing.

WorkWipes Rags

High quality rags made from either recycled or new materials.

Strict material and size requirements mean more usable, high-quality rags in every package. Choose white colored material for use with solvents, which might cause colored rags to bleed. Eco- and cost-friendly New Material rags are made from factory mill ends of new cotton and cotton-blend T-shirt material and 100% pre-consumer recycled textiles. Reclaimed rags are made from recycled post-consumer materials.

T-shirts are durable, laundered and low-lint cotton; ideal for staining, wiping, polishing and other general-use tasks. **Sweatshirts** are thick and absorbent cotton and cotton blends for great softness and strength;

ideal for heavy-duty wiping. **Surgical huck** is colorfast, low lint and sanitized; 100% cotton for glass cleaning. **Flannel** is durable, absorbent, soft and nonscratching cotton and cotton blends; use for general wiping tasks.

PIG SpillBlocker Dike

Seals tight to stop the spill.

Exclusive New Pig formulation resists tearing and a tacky bottom layer seals tight to smooth surfaces. Dike is flexible and formable to shape to the spill; confines and diverts fluids without absorbing them, making cleanup or reclamation simpler. Built-in dovetail connectors create a liquidproof seal and allow you to join as many sections as you need. **PLR267** includes two 5' lengths of 3"-high dikes for easy handling; add a corner (**PLR268**) for perfect right angles. **PLR253** and **PLR254** are our tallest dikes; get up to 6 3/4" of spill stopping power for high-volume spills.

AVAILABLE IN THREE HEIGHTS!

Our toughest DrainBlocker can take whatever your parking lot dishes out.

Punctures – Stands up to debris and sharp objects that trash other covers.

Abrasion – Won't wear down even when tires track on dirt and gravel.

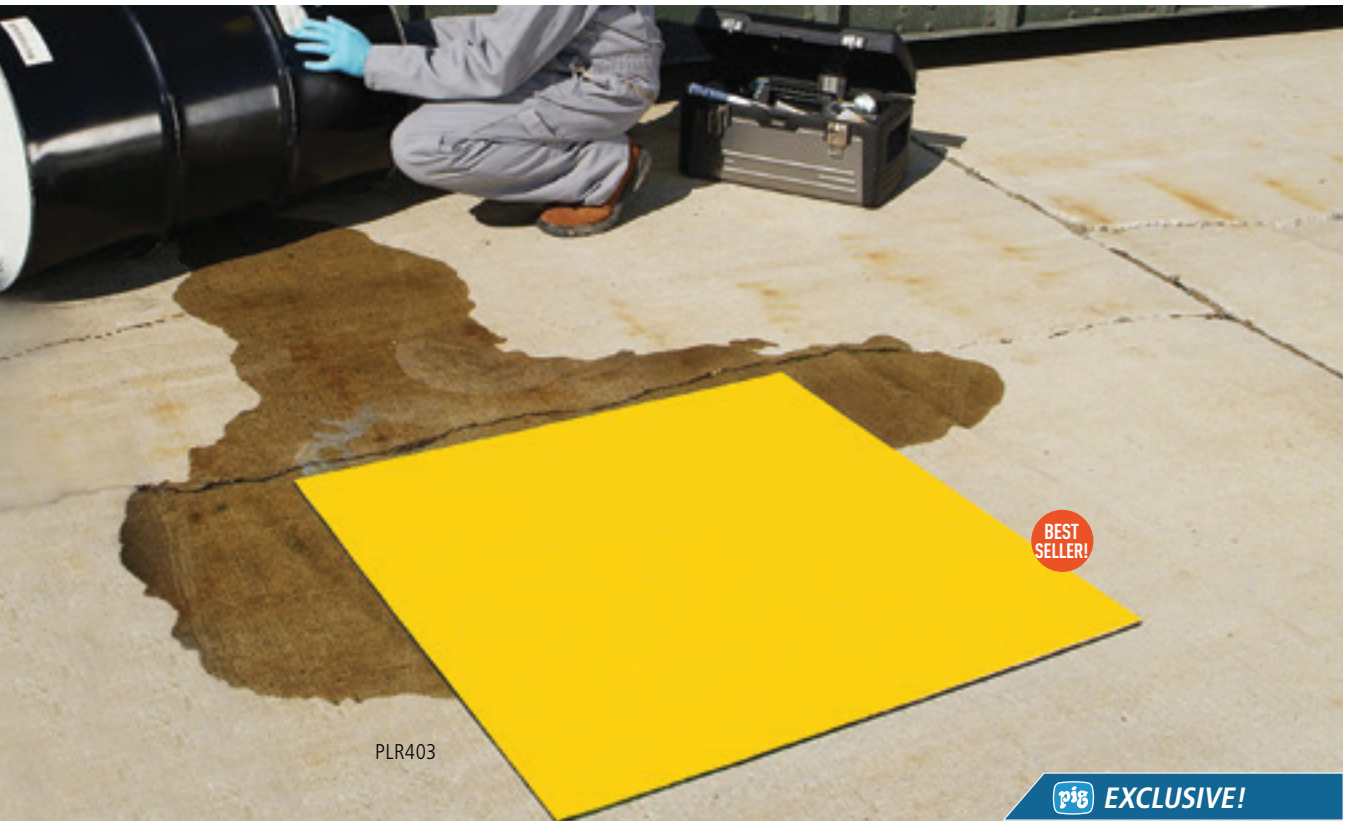

UV & IR Light – Made to take the baking sun in your parking lot.

Chemicals – Resists many commonly used chemicals to keep drains secure.

Even after repeated tanker driveovers, this DrainBlocker still seals tight. And it won't rip when you pick it back up.

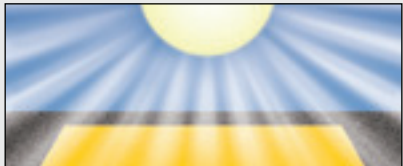

These tough covers protect your drains — no rips, no tears, no worries!

Tear Resistant – Tougher than standard covers to resist ripping.

Chemical Resistant – Stands up to long-term hydrocarbon exposure.

UV & IR Light Resistant – this cover is made for long-term outdoor use.

Easy to Clean – Dirt and grime won't stick to the surface.

Round covers are available in sizes for drains up to 24" dia.

Rectangular covers are perfect for long or narrow drains.

PIG Drive-Over DrainBlocker

Withstands tanker traffic!

This patented design is the only cover tough enough to handle driveovers, only from New Pig. Ideal for long-term drain protection where liquid transfers, washdowns or other leak- and spill-prone jobs are common. Eliminates the need to frequently deploy and remove a temporary cover or permanently seal your drains. Tough, patented-rubber HogHyde Skin stands up to punctures, tearing and abrasion, even under heavy vehicle traffic from tankers, trucks or forklifts. Super-sealing urethane bottom layer conforms to uneven surfaces and tightly seals drain openings to block liquid.

Maintenance

pig Pipe Wrap Repair Kits
Make broken pipes like new.

Each kit contains materials for restoring one pipe or joint. It works on PVC, copper, galvanized steel, rubber, lead and iron; repair is not affected by salt water. Materials adhere to wet or dry surfaces, so no need to drain pipes. Repair kits for pipes and joints under pressure can be used without relieving line pressure (up to 60 psi), but those for pipes and joints not under pressure require you to relieve line pressure before beginning repairs. Cures in about 30 minutes at 75°F.

HOW IT WORKS

1. Apply primary patch layer.

2. Soak outer wrap to activate it.

3. Apply outer wrap.

4. Finish off repair and let it cure.

LEAK DIVERTERS

Roof Leak Diverter

Protect your assets from leaks.

Protect employees, equipment and inventory while keeping floors dry! PIG Leak Diverters hang easily in problem spots to catch roof leaks and channel them to a floor drain or container. Ideal for quick response to avoid downtime after a roof leak or for long-term prevention in leak-prone areas. Impermeable tarp is vinyl coated for strength and durability; resists punctures, UV and mildew for long life. Accepts a standard 3/4" hose connection to channel liquid (hose sold separately). Trough style diverter (TLS560) fits perfectly between ceiling joists and high-visibility yellow diverter (TLS555) features an eye-catching safety message on both sides.

Why buy a PIG Leak Diverter?

STAKES ARE HIGH

Roof and pipe leaks can be catastrophic and result in ruined inventory, lost production time and possible injuries. How much can you afford to lose?

PREPARATION IS KEY

That storm is coming. Avert disaster by keeping PIG Leak Diverters on hand before you need them.

GET THE BEST

Only PIG Leak Diverters deliver the top-quality and wide selection that can keep you covered in any situation.

COMPLY WITH REGS

Keep your employees safe. Roof leaks cause wet floors and wet floors cause slips and falls. PIG Diverters help you comply with OSHA regs stating that your floors must be kept dry and safe.

Here's how it works...

Spring-Open Roof Leak Diverter Kit

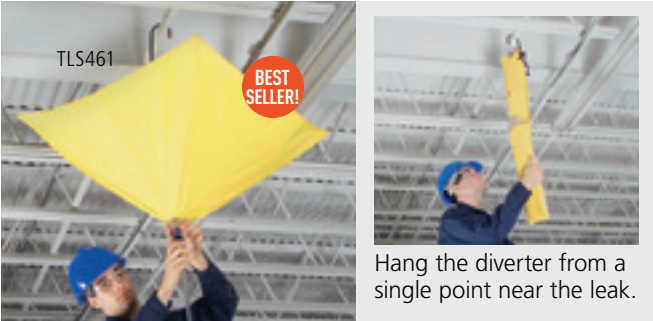

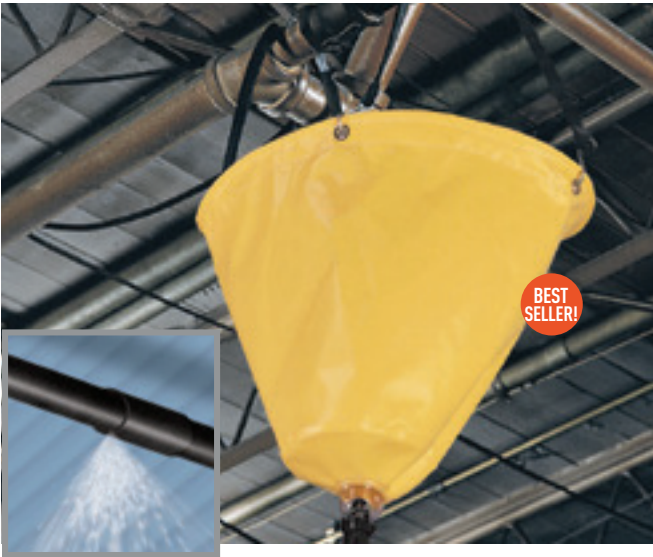

Hangs and levels fast to divert leaks.

Coiled diverter springs open for easy installation. Straps, hooks and clamps can be adjusted in seconds; just nudge diverter until it's centered and leveled, even if hanging points are uneven. Rigid outer rim adds structure so diverter keeps its shape and is easier to level.

NOTE: Not suitable for temperatures over 190°F/88°C.

Patent Pending

Umbrella-Style Leak Diverter

The fastest way to catch a roof leak.

Hang from a single point near the leak, remove the cover and it opens like an umbrella. All-in-one kit is perfect for quick response to prevent damage to inventory or machinery and avoid slip hazards.

PIG® Umbrella-Style Roof Leak Diverter Kit

NOTE: Not suitable for temperatures over 190°F/88°C.

Pipe Leak Diverter

Catch pipe leaks or condensation.

Hangs from a leaking pipe to catch nuisance leaks and channel them to a floor drain or collection container. Impermeable tarp is vinyl coated for strength and durability; resists punctures, UV and mildew for long life. Features built-in grommets and included rubber straps for easy hanging from a pipe.

Material Handling

DRUM LIDS

EXCLUSIVE!

PROBLEM: Taking the bolt ring and lid off an open-head drum that's being used to store hazardous waste and not replacing it is a violation of closed container regs.

FINDING THE SOLUTION: Our idea was simple — make a temporary lid with a latch that was easy to install and use. We not only perfected this idea, we created versions for every application!

PIG® Latching Drum Lid

Easy one-hand access meets regs.

Hinged lid has a latching handle that easily opens and closes with one hand. Nitrile gasket and locking mechanism seal drum lid to help cut vapors and keep drum contents dry and secure. Drum lid improves appearance of drums and storage areas. Easy-access lid closes securely to help you meet regulations and hinge stops keep lid upright when open. Lockable latch prevents unauthorized access.

FUNNELS

PIG® Burpless Funnel

Clean pouring and a one-hand latch!

Latching handle opens and closes lid in a one-handed operation. Lets you pour without having to vent through 3/4" bung, a possible closed container reg violation if left open. Chemical-resistant powder coat helps ensure long service life. DRM1210 features a wide mouth funnel.

EXCLUSIVE!

PROBLEM: Pouring liquids into a closed-head drum is a messy job. Funnels take forever to drain. They burp. They splash. But leaving open the 3/4" bung to vent the drum is a violation of closed container regs.

FINDING THE SOLUTION: We designed a funnel with a built-in vent that can empty a 5-gallon bucket in 17 seconds without splashing plus comply with regs!

PIG® Burpless Poly Funnel

Economical funnel pours smoothly.

Burpless design vents during pouring for fast, smooth flow with no splashback. Thick 100% polyethylene construction resists UV rays, rust, corrosion and most chemicals. Drain plug comes standard.

pig AEROSOL CAN RECYCLER

pig Aerosol Can Recycler

Avoid the hassle and expense of haz waste handling.

Recycling system easily punctures aerosol cans, rendering them exempt from haz waste regulations when properly emptied. Eliminates the risks associated with illegal aerosol disposal and the expense of hazardous waste handling. Minimizes worker injuries. Drum should not be filled more than 70% full to provide proper displacement for released contents.

pig IBC Spill Pallet Up to 8,000 lb. capacity!

Our IBC Spill Pallet is the best blend of strength and value without paying for more capacity than you need. Strong enough for long-term storage of IBCs, this innovative design transfers weight to load-bearing channels. Molded-in sump catches leaks, drips and spills to help you comply with regulations and keep storage areas clean. Pallet with attached bucket shelf (PAK736) drains collected liquids into main sump for neater, easier dispensing.

Why do I need a Roll Top?

Drums stored outdoors are an easy target for EPA inspectors. Without containment, your leaks and spills are direct contaminants to the environment. Even regular pallets don't cut it — they just fill up with rainwater and spill out. But New Pig has you covered. PIG Roll Top Hardcover stands up to even the toughest conditions, keeping liquids in and the elements out. Roll tops slide up for easy access while the rest of the hardcover stays closed. Built-in sumps catch leaks, drips and spills and heavy-duty construction allows you to move the some units with drums in place. Roll Tops help you comply with 40 CFR 264.175 for storage of haz waste and with SPCC and Stormwater Regs.
